LEGEND

*Spey Rods Should Add 25 Grains

*Echo TR2 Rods are Quite Strong - They fall under a slightly different grain window than most Trout Spey Rods

**10' Single Hand Rods Require Grain Weights heavier than 9' Rods. Add 25 Grains for a 10' Rod

***If you are having a problem blowing your anchor with these Micro Tips - Add 2' of 30# Tippet BETWEEN the head and the tip.

***** 10' RIO Replacement Tips are 5-9 wt 55 grains - 95 grains. 15' RIO Replacement Tips are 6wt to 10wt and there is no 6wt Floating tip. Since a floating tip has less stick than a sinking tip use the 7wt 95gr floating tip.
